

Julien Peignon

CEREMADE, Université Paris-Dauphine, PSL University – Paris, France

peignon@ceremade.dauphine.fr

julienpeignon.github.io

Research Interests

Theory and applications of noncausal time series models; density forecasting; machine learning for time series.

Education

Université Paris-Dauphine, PSL University

Paris, France

Ph.D. in Mathematics

2025–present

Thesis title: *Contributions to the Theory and Applications of Noncausal Time Series*.

Supervisors: Fabrice Rossi and Arthur Thomas.

ENS Paris-Saclay

Gif-sur-Yvette, France

M.Sc. in Statistical Learning (MVA)

2024–2025

Paris School of Economics

Paris, France

M.Sc. in Economics (APE)

2022–2024

Master's thesis (2024): impacts of “right-to-work” laws on union membership, wages, and employment. Supervisor: David Margolis. Replication code (R).

ENSAE

Palaiseau, France

French Grande École Diploma

2022–2025

Equivalent to an M.Sc.; major in Applied Mathematics.

ENS Paris-Saclay

Gif-sur-Yvette, France

French Grande École Diploma

2020–2025

Equivalent to an M.Sc.; major in Quantitative Economics.

Ludwig-Maximilians-Universität München (LMU)

Munich, Germany

Erasmus Semester

2021

Working Papers

1. “Tail-aware density forecasting of locally explosive time series: a neural network approach,” with Elena Dumitrescu and Arthur Thomas (2026). *Submitted*.
2. “Time Series Forecasting in the Presence of Explosive Bubbles,” with Fabrice Rossi and Arthur Thomas (2026). *Submitted*.

Work in Progress

1. “Geometric ergodicity and β -mixing of mixed causal–noncausal processes,” with Jordi Llorens-Terrazas and Arthur Thomas.

Conference and Seminar Presentations

2026

9th International Conference on Econometrics and Statistics (EcoSta, Kyoto, Japan); International Association for Applied Econometrics (IAAE) Annual Conference (Carcavelos, Portugal); 8th Quantitative Finance and Financial Econometrics Conference (Marseille, France); Time Series AI in Macroeconomics & Finance (Bristol, UK); 34th European Symposium on Artificial Neural Networks, Computational Intelligence and Machine Learning (ESANN, Bruges, Belgium); 16th Workshop in Time Series Econometrics (Zaragoza, Spain); 57^{es} Journées de Statistique de la SFdS (Clermont-Ferrand, France).

2025

19th International Joint Conference on Computational and Financial Econometrics and Computational and Methodological Statistics (CFE–CMStatistics, London, UK); 24^e Journée d'Économétrie (Nanterre, France); 1st Workshop on Noncausal Econometrics (Paris, France).

Teaching

Université Paris-Dauphine, PSL University	Paris, France
Statistics (undergraduate), Teaching Assistant	2026
Econometrics (undergraduate), Lecturer	2026
Time Series Econometrics (graduate), Lecturer	2025

Work Experience

French Ministry of National Education	Paris, France
<i>Statistical Intern</i>	<i>Mar–Sep 2024</i>
Analyzed the educational pathways of non-French-speaking secondary school students using administrative data. Drafted a scientific article submitted to <i>Éducation & formations</i> .	
French Ministry of Ecological Transition	Puteaux, France
<i>Macroeconomics Intern</i>	<i>Sep 2023–Mar 2024</i>
Evaluated the economic and climate impacts of energy transition policies using a global macroeconomic computable general equilibrium model.	
National Institute of Statistics and Economic Studies (INSEE)	Montrouge, France
<i>Statistical Intern</i>	<i>Summer 2023</i>
Developed supervised learning algorithms for textual classification of scanner data for integration into the Consumer Price Index calculation. Python code available on GitHub.	

IT Skills

R, Python, Git, SQL.

Languages

French (native), English (professional proficiency).
